

# Call for Tutorials

We invite proposals for half and full-day tutorials to be held at IEEE eScience 2021 on September 20, 2021. The eScience 2021 Tutorial Program is intended to teach new and/or state-of-the art tools and techniques relevant to the eScience audience, disseminate information to conference attendees on recently emerging topics and trends, or provide surveys and overviews of related digital technologies.

We encourage all submissions that fall in the area of the conference, and particularly those that have a practical (hands-on) component which helps attendees learn the new technologies presented in the tutorial.

Please send any inquiries to [escience2021-tutorials@ml.riken.jp](mailto:escience2021-tutorials@ml.riken.jp)  
eScience 2021 Tutorials Program Co-Chairs: Peter Thoman, University of Innsbruck and Kento Sato, RIKEN R-CCS

## Schedule

- April 07, 2021: Tutorial Proposal Deadline
- June 01, 2021: Tutorial Acceptance Notifications
- September 20, 2021: Tutorials day

## Submission Guidelines

### Submission of the cover sheet and the extended abstract

Submission Link: <https://forms.gle/UsbBAxykPjmtbsB1A>

Submissions should include (1) a cover sheet and (2) an extended abstract.

### Requirements for the cover sheet

The cover sheet should include the following elements

- Title and length (either half-day, e.g. 3 hours plus breaks, or full day, e.g., 6 hours plus breaks) of the tutorial
- Short abstract (300 words)
- Intended audience (introductory, intermediate, advanced) and prerequisite knowledge or skills required
- Previous offerings of the tutorial if any
- Detailed contact information of all presenters (and indication of the main contact person)
- Brief biography (max. 2 paragraphs) for each presenter, highlighting relevant teaching experience
- File must be PDF

## Requirements for the extended abstract

The extended abstract (no longer than 2 pages) should include the following sections

- Motivation
- Brief outline of the topics to be covered
- Detailed agenda of the tutorial
- Links to related resources
- Type of support materials to be supplied to attendees
- Please answer the following questions:
  - Can the proposed tutorials be moved to a fully online format if required?
  - If yes, please describe changes and impact to your agenda (e.g., hands-on sessions).
- File must be PDF
