Conference Call for Workshops

The 17th IEEE eScience Conference will be held in Innsbruck, Austria on September 20-23, 2021.

eScience 2021 welcomes proposals for workshops to be held with the main conference on Monday September 20 and Thursday September 23, 2021.

The eScience conference has a long history of hosting broad and well-attended workshops broadly related to eScience and co-located with the main conference. These workshops share the goal of bringing together leading international and interdisciplinary research communities, developers, and users of eScience applications and enabling IT technologies.

Workshops play a crucial role in the conference by providing an opportunity for researchers and practitioners to present their work in a more focused way than the conference itself, and to have in-depth discussions of particular topics of interest to the community. Workshops may be focused on any eScience-related topic including, but not limited to, interdisciplinary research, advanced cyberinfrastructure, data science, and education.

eScience 2021 accepts two types of workshop proposals: ***workshops with peer-reviewed papers and proceedings***, and ***workshops with invited talks and no proceedings***.

Workshops with peer-reviewed papers and proceedings:

Workshop organizers are responsible for establishing a program committee, paper submission system, collecting and evaluating submissions, notifying authors of acceptance or rejection in due time, ensuring a transparent and fair selection process, organizing selected papers into sessions, and assigning session chairs. Proposals showing clear focus and objectives in areas of emerging or developing interest will be prioritized.

The proceedings of the workshops will be included in the eScience 2021 proceedings to be published by the IEEE Computer Society Press, USA and made available online through the IEEE Digital Library if the following criteria will be followed:

- The solicitation for papers must be open.
- All the papers must be peer-reviewed by a qualified Program Committee.
- The workshops Program Committee must have an appropriate size for expected number of submissions.
- The workshop proceedings must have at least 4 papers (for a half-day workshop) or 6 papers (for a full-day workshop), at a length of at least 6 pages and no longer than 10 pages (including figure, tables, and citations) in the IEEE conference format.
- For each paper selected for publication, at least one of the authors must be registered to eScience 2021 to present the paper in person.

Workshop proposals should be submitted per email to escence2021-workshops@uibk.ac.at

A proposal should be submitted as a single PDF file (up to 5 pages). The proposal should include this information:

- Workshop name and acronym
- Workshop description (including its focus and goals) (max. 500 words)

- Workshop length (half-day, e.g. 3 hours plus breaks, or full-day, e.g., 6 hours plus breaks)
- Names and affiliations of the organizers and tentative composition of the committees *(we invite the authors of the proposal to consider a diverse group of organizers and committee members in terms of e.g., race/ethnicity, gender, geographic areas)*
- Expected number of submissions/accepted papers
- Prior history of this workshop, if any

Workshops with invited talks and no proceedings:

Workshop organizers are responsible for inviting the speakers, establishing a program in due time, organizing the selected talks into sessions, and assigning session chairs. Proposals gathering experts in areas of emerging or developing interest will be prioritized.

Each speaker must be registered to eScience 2021 to present in a session.

Workshop proposals should be submitted per email to escience2021-workshops@uibk.ac.at

A proposal should be submitted as a single PDF file (up to 5 pages). The proposal should include this information:

- Workshop name and acronym
- Workshop description (including its focus and goals) (max. 500 words)
- Workshop length (half-day, e.g. 3 hours plus breaks, or full-day, e.g., 6 hours plus breaks)
- Names and affiliations of the organizers *(we invite the authors of the proposal to consider a diverse group of organizers in terms of e.g., race/ethnicity, gender, geographic areas)*
- Expected number of talks and their length
- Tentative list of speakers *(we invite the authors of the proposal to consider a diverse group of speakers in terms of e.g., race/ethnicity, gender, geographic areas)*
- Prior history of this workshop, if any

Key Dates

Workshop Submissions Due: Monday March 15, 2021

Workshop Acceptance Notification: Tuesday March 30, 2021

All Camera-ready Submissions Due *(for workshops with peer-reviewed papers and proceedings)*: Thursday July 22, 2021

Program with list of speakers *(for workshops with invited talks and no proceedings)*: Thursday July 22, 2021

Conference Dates: September 20-23, 2021

Workshop Dates: September 20 and September 23, 2021
